

Moments...

(Mother)

*It's a moment of grace when a new child is born,
the hope of new life out of love was formed.*

*The moment of care as the baby awakes,
to be held in the arms of a loving embrace.*

*The moment of hunger as the baby cries out,
to be nurtured and nourished to feel warm and safe.*

*The moment of bonding as the baby is fed,
complete and at one, suckling mother's breast.*

*The moment of contentment and love so deep,
in mother's arms her child is now soundly asleep.*

*The stillness and peace, her child is at rest,
the warmth of each breath; rise and fall of baby's chest.*

*As these moments occur, mother watches in awe
the life in her arms, these blessings she bore.*
