

Pastoral Ministry Support

13th November 2017

Hello!

We are constantly in touch with God through our daily lives either by thought, prayer, actions, service or through others by their prayer, love, empathy, affection, goodness and sometimes a shoulder or an ear.

Prayer plays an enormous part of our life by sharing our thoughts and actions with God, by taking some time to be silent with God, by praising and thanking God at the end of our day or at the beginning. God hears us and God knows our struggles and our joys...

Here's some information on prayer and some possible prayers that may support us during certain times of our life. I've also included a list of helpful reading to access.

Please pass this on to anyone you feel it could be helpful for.

I'll send on more about prayer in the near future.

Wishing you God's continuous blessings.
Take care and go gently.

Much love,

Paulineke
